

April 1, 2020

Extendicare Health and Rehabilitation would like to take an opportunity to give an update. We have no new cases of Covid-19. We feel that the precautions that we have put in place are working and we are going to continue with these precautions. We take our guidance from the Alabama Department of Public Health and the CDC. Our goal is to maintain the safety and health of our residents and staff.

We have witnessed some heartwarming events this week and would like to share some of these with you. Some of our vendors and local businesses have donated meals to the staff. Kindred hospice placed a sign out front that states “Heroes work here.” Church groups and individuals are sewing cloth masks and donating them to us. These groups have also been praying over the building and for its residents. It has been truly humbling, to see the community’s response. We truly appreciate the support and prayers.

Several families have taken advantage of “meet at the window”, this has been very successful with a lot of singing and smiling as the families see their loved one. Also, several residents have been face timing with their families and keeping in touch. If you would like to schedule one of these experiences, contact our Activities department and they will make all the arrangements. We encourage this contact as it will raise the spirits of all involved.

In the coming weeks we understand that there may be a surge in Covid-19. We have been meeting on a regular basis and feel that we are prepared. We are going to maintain our precautions and continually evaluate whether or not to increase our response. We will continue to place updates on our Facebook site and web site. If you have any questions or concerns please give us a call. Please stay in contact with your loved one.
